ABOUT CS UNITED SOCCER CLUB

CS United Soccer Club is recognized as one of the elite clubs in the Northeast with a strong reputation of professional coaching, a commitment to player development and continued team success. We pride ourselves in creating a supportive environment in which our players can thrive both on and off the field as defined within our long term player development model. Within the framework of this curriculum, our staff strives to instill character, self-esteem, respect, responsibility, accountability, and fair play within our young athletes.

As a club, we maintain a shared belief with Liverpool FC that team spirit, hard work, determination and the ability to overcome any obstacles in life and above all play with dignity and fair play are the values and characteristics we look for our players, coaches and program as a whole.

We are dedicated to our continued growth as a club, our benevolent influence in the community and our commitment to imparting our passion for the game within our players above all else.
